

3D Incubator, the European 3D printing incubator

The High-Tech Business incubator is a project led by “*El Consorcio de Zona Franca de Barcelona*” and “*Fundación LEITAT*”. Its goal is to promote the adoption of 3D Printing technologies through the creation of a space for the incubation of SMEs and micro-SMEs related to these technologies. The High-Tech D-Factory Incubator is co-financed at a 50% by ERDF, through the Spanish Pluri-regional Operational Program 2014-2020, and operates under Axis 3: Improving the competitiveness of SME’s.

“Una manera de hacer Europa”

UNIÓN EUROPEA

What is it?

D-Factory Incubator is the **European 3D printing incubator full of services for growing your idea or startup**, launched by Consorci de la Zona Franca de Barcelona and Leitat.

How can I benefit from The 3D Incubator?

Sending the formulary properly completed and being selected.

Am I in one of these situations?

UNIÓN EUROPEA

- I want to start my own business in this field, but I need some support (technological entrepreneurship).
- I know this is perfect for my company, but I need to create something new from the beginning (corporate entrepreneurship).
- I have already started to use it, I would love some assessment for its commercialization (new business model entrepreneurship).
- I'm facing some challenges adopting the technology (industrial entrepreneurship).

... even if you are not in one of these situations, let us know how we can help you!

How are you going to help me?

UNIÓN EUROPEA

By providing 5 types of services:

Incubator services

- Co- working areas, private offices, training activities, networking sessions...

Technological services

- Related to 3D printing from A to Z: design parts, prototyping, modeling, tooling... Anything you can need!

Innovation services

- Mainly related to your company: IP protection, funding opportunities, mentoring sessions, innovation advice...

Commercialization and internationalization services

- focused on your company's opportunities: participation in trade shows, organization of trade missions, international markets analysis, potential market conferences...

Testing, validating and certifying

- specifically related to your products: once the product is finished, we can make all types of tests and certifications.

UNIÓN EUROPEA
